

FAQs for rehoming groups and shelters

1. Who is eligible for the Desexing and Dental Scheme?

Only registered participants who are the current pet owner of the greyhound are eligible to apply for the Desexing and Dental Scheme.

2. Why are re-homing groups, pounds and shelters not eligible?

The purpose of this scheme is to support participants to comply with their legislative responsibility to desex their greyhound *PRIOR* to rehoming or surrender to a rehoming group or shelter.

GRV encourages all rehoming groups and shelters to request greyhounds be desexed under this scheme prior to acceptance into your program.

3. If I have just picked up a greyhound, can I return it to the former owner to be desexed?

No, please see FAQ 2.

4. I received a desexed greyhound, but I feel its dental condition is poor?

Please contact GRV's Greyhound Welfare and Rehoming department to discuss your concerns on 03 8329 1100.
