

Making a toilet paper / egg carton snuffle box

What will you need?

- Toilet paper / paper towel rolls / egg carton
- Newspaper / paper
- Tasty dog treats

How do you make it?

Step 1

Wrap a small amount of newspaper/paper around a few treats and screw it up tightly.

Step 2

Place screwed up newspaper inside the toilet paper roll or egg carton.

Repeat these two steps until the toilet roll or egg carton is full of screwed up newspaper.

Step 3

Lay out a sheet of newspaper and roll toilet paper roll up, then tuck the ends inside the toilet roll. In the case of the egg carton close the lid. It is then ready to give your greyhound.

If you don't have newspaper, you could use a small amount of material to hide the treats between OR you could try this approach below.

You can also put all the rolls (or even just scrunched up newspaper with treats wrapped in each bit) in a box or small / medium plastic tub or an empty dog pool.

Step 4

To make things harder you could put in some empty large plastic bottles.

Step 5

Give the rolls or box to the greyhound.

If your greyhound starts eating the paper or cardboard rather than just the treats, throw some treats onto the ground away from the area so you can clean up.
