

FAQs for rehoming groups and shelters

1. Who is eligible for the Desexing and Dental Scheme?

Unless otherwise approved by GRV, only registered participants who are the current owner of the greyhound are eligible to apply for the Desexing and Dental Scheme. If you receive an entire greyhound, please ring GRV's Greyhound Welfare and Rehoming department on 03 8329 1100.

2. Why are re-homing groups, pounds and shelters not eligible?

The purpose of this scheme is to support participants to comply with their legislative responsibility to desex their greyhound *PRIOR* to rehoming or surrender to a rehoming group or shelter.

GRV encourages all rehoming groups and shelters to request greyhounds be desexed prior to acceptance into your program.

It is a breach of the racing rules for a participant to surrender any greyhound to a council pound.

3. If I have just picked up an entire greyhound, what do I do?

Please ring GRV's Greyhound Welfare and Rehoming department on 03 8329 1100.

4. I received a desexed greyhound, but I feel its dental condition is poor?

Please contact GRV's Greyhound Welfare and Rehoming department to discuss your concerns on 03 8329 1100.
